

**ESSEL EMERGENCY SERVICES**

# THE E-TEAM

On-Demand Disaster Response

1-800-595-7616 | [esseltex.com](https://esseltex.com)

# ENVIRONMENTAL EMERGENCY RESPONSE

Essel's agile team of highly qualified professionals are trained and prepared to quickly respond during natural disasters, wildfires, train derailments, oil spills and more. We understand that reliability, teamwork, and exceptional communications are essential during times of crisis. Our on-demand technical professionals and boots-on-the-ground resources can lead response efforts or seamlessly integrate on larger project teams.

## ENVIRONMENTAL EXPERTS & EXPERIENCE

Essel Environmental is a go-to resource for responsive, high quality environmental, engineering, and emergency response services since 2001. Our Emergency Response clients trust Essel because the teams we send aren't just bodies, they are trained, experienced and responsive Environmental professionals.

# DISASTER RESPONSE SERVICES

From 150-person crews working long-shifts for a year, like our response team to the California Camp Fire, to 10-person response teams working for 7 days to clean up an industrial spill, we are ready to respond.

---

## PROTOCOL PREPARATION

Essel will prepare a work plan that documents assessment execution, clean up criteria and how to address any areas of concern. With everyone aligned to the project plan, it will be smooth sailing.

## HAZMAT ASSESSMENT

After a disaster, Essel will identify all environmental and safety hazards. We will inspect impacted debris and infrastructure for hazards and ensure local compliance with regulations.
